# Sprint 1

**Team Mates:**

1. Jenish J (Team Lead)
2. Aswin mon M
3. Jebix shylin E
4. Rajesh kumar J

**Sprint 1:**

### 1. Create an UI to interact with Application

**Code:**

**App.py:**

```python
from flask import Flask, render_template, request, redirect,
session import ibm_db
import re

app = Flask(__name__)

@app.route('/dashboard')
def dashboard():
    return render_template('dashboard.html')
```

```python
@app.route('/admin')
def admin():
    return render_template('admin.html')

@app.route('/about')
def about():
    return render_template('about.html')

@app.route('/privacyterms')
def privacyterms():
    return render_template('privacyterms.html')
```

**Login.html:**

```html
{% extends 'base.html' %}

{% block head %}

    <title>
        Login
    </title>

{% endblock %}

{% block body %}

<div class="forpadding">

    <!-- for box of the signup form -->
    <div class="sign">
        <div>
            <p class="fortitle">
                Sign In
            </p>
            <hr>
            <form action="/login" method="post">
                <div class="forform">
                    <div class="textinformleft">
                        Username
```

```html
                </div>
                <div class="textinformright">
                        <input type="name" name="username">
                </div>
        </div>

        <div class="forform">
                <div class="textinformleft">
                    Password
                </div>
                <div class="textinformright">
                        <input type="password" name="pass">
                </div>
        </div>

        <br>
        <div>
                <button class="forbutton" type="submit"> Sign In
>></button>
        </div>
    </form>
    <br>

    <div>
            New user? <a href="/signup">Sign up</a>
    </div>
    <br>
    </div>

    </div>
</div>

{% endblock %}
```

**Base.html:**

```html
<!DOCTYPE html>

<head>

    <link rel="stylesheet" href="static/css/main.css"/>
    {% block head %} {% endblock %}
</head>

<body>
```

```
    {% block body %}
    {% endblock %}
</body>

</html>
```
